News Release

CNBC Property Awards honors Shore Pointe at Cupecoy

The CNBC Americas Property Awards 2008, in association with The New York Times, has announced **Shore Pointe at Cupecoy** a winner in its **Best Caribbean Development Category**.

"It is truly an honor to accept this award from such a prestigious organization...an organization whose objective is to encourage excellence in the property industry worldwide and to recognize and promote an international standard" says John Lemacks, President of Worldwide Management Company, one of the Managing Partners of the development located on the Island of St Martin/St Maarten in the French West Indies/Netherlands Antilles.

John went on to say "Creating an oceanfront community of 16 Luxury Villas was a great collaboration between our Architects (CICCA), our Builder (SP & CC), our Bank (RBTT) and many very qualified sub-contractors. We had a vision to create one of the finest oceanfront communities in the Caribbean and it is very gratifying to see that vision come to life and to receive such an honor. Worldwide Management has been involved in several projects on the Island and we look forward to many more."

The CNBC Property Awards received thousands of entries in 21 different categories prior to naming **Shore Pointe at Cupecoy** a winner in the **Best Caribbean Development Category**. Entries were judged by a panel of international independent professionals, chaired by Eric Pickles MP, British Shadow Secretary of State. Their collective knowledge of the property industry is second to none and unsurpassed by any other property awards.

The award will be presented at a glittering gala dinner to be held at the Ritz Carlton in Orlando, Florida on November 7th, 2008. At the November 7th award gala, **Shore Pointe at Cupecoy** will be awarded either a four-star or five-star award and be judged against winners in the International Property Best Development Category from the CNBC Arabian Property Awards, CNBC Asia Pacific Property Awards, and CNBC European Property Awards.
